Put your team on the path to success

A successful business starts with well-equipped teams. Every day, millions of people in thousands of global organizations use MindManager to more effectively think, plan, communicate, and collaborate across their most business-critical tasks.

MindManager Enterprise empowers team members to be more productive on their own, work better with each other, and maximize the tools available to them. It’s the industry-leading software for mind mapping, interactive diagramming, strategic business and project planning, and more.

Work better & faster together
- Collaborate with others in co-editing sessions in real time to drive understanding, alignment & buy-in.
- Transform a dynamic brainstorm into an executable strategy in a single team session.
- Save and share maps in Dropbox, Google Drive, OneDrive, SharePoint, or Box.

Plan & manage masterfully
- Understand project timelines and priorities by assigning resources, rolling up costs, mapping timelines and more.
- View projects by resource, tasks, timeline, Gantt chart and more for 360-degree visibility into status, red flags and risks.
- Effortlessly balance big-picture project goals with the details that make it all come together.

Centralize & simplify execution
- Create maps from sources such as SharePoint, Outlook, and Excel, and aggregate data from other maps.
- Easily commend large amounts of data with powerful search, filtering and indexing tools.
- Connect and correlate files, links, media, notes and more, to create rich, comprehensive, shareable dashboards.
